

About Our Services:

- **Privacy And Security Principles.** Since we started WhatsApp, we've built our Services with strong privacy and security principles in mind.
- **Connecting You With Other People.** We provide, and always strive to improve, ways for you to communicate with other WhatsApp users including through messages, voice and video calls, sending images and video, showing your status, and sharing your location with others when you choose. WhatsApp works with partners, service providers, and affiliated companies to help us provide ways for you to connect with their services.
